

### Inovonics Wireless Solutions

Inovonics' line of EchoStream® wireless intrusion detection devices and mobile duress (panic) buttons are designed with today's applications in mind. Supporting installations with thousands of security devices across a campus, the EchoStream family of pendant transmitters, universal transmitters, motion detectors and add-on receivers can connect to virtually any security system.

Unique to Inovonics is the high power repeater mesh that intelligently amplifies transmissions from EchoStream transmitters. Providing coverage in all types of building construction, thus eliminating the need for labor associated with wired installs. EchoStream provides the flexibility to cover small, medium and large commercial buildings as well as complete campuses.

### Security Panel Partners

Inovonics offers direct integration to various panel partners along with add-on receivers that can integrate with nearly any security system.

#### Direct to Panel Integrations

Please contact your distribution partner for more information.

#### Add On Receivers

Receiver	Transmitters	Open Collector Outputs	Relay Outputs
EE4216MR	16	-	6
EE4232M	32	12	-
EE4232MR	32	-	12

**Water Resistant Pendant Transmitters**

Compact single or double button pendant that can be supervised. LED flashes when transmitting. Ideal for healthcare applications.

Single Button **EE1223S**

Double Button **EE1223D**  
*Grade 2 Security Product*

Wristband **ACC623**

**Necklace Pendant Transmitters**

Sleek single or double button pendant that can be supervised. LED flashes when transmitting. Easy to wear with included necklace.

Single Button **EE1233S**

Double Button **EE1233D**

**Belt Clip Pendant Transmitters**

Sleek single or double button pendant that can be supervised. LED flashes when transmitting. Durable belt clip included.

Single Button **EE1235S**

Double Button **EE1235D**

**Double-Button Three Condition Pendant Transmitter**

The **EE1236D** double-button three condition pendant transmitter is able to send three separate alarm conditions.

**Universal Transmitters with Wall Tamper**

Wall tamper switch adds protection from device removal.

Single Input Universal Transmitter with Wall Tamper **EE1215**

With Reed Switch **EE1215W**

*Grade 2 Security Products*

**Dual Input Universal Transmitter with Wall Tamper**

The **EE1216** dual input universal transmitter with wall tamper is designed for use with almost any standard contact or sensor, and includes two inputs for maximum flexibility.

*Grade 2 Security Product*

**360° Ceiling Mount Motion Detector**

The **EE1265** four element motion detector offers a 360° coverage pattern and is a wireless four-element passive infrared intrusion detector.

High Ceiling Lens (7.6m) **ACC669**

**360° Ceiling Mount Motion Detector Coverage**

Side View

**Four Element Motion Detector**

The **EE1261** four element motion detector is a wireless motion detector that features a detection range of 15 meters, fixed or variable sleep time, a walk test feature, and a front and rear tamper switch.

*Grade 2 Security Product*

**High Traffic Four Element Motion Detector Coverage**

Top View

Side View

**Glassbreak Detector**

The **EE1247** uses acoustic pattern recognition technology for proven performance, extended range, and increased immunity to false alarms. 20ft radius allows for multiple window coverage.

**High Power Repeater**

The high power repeater amplifies transmissions from any transmitter.

High Power Repeater **EE5000**  
*Compliant grade 2 product*

Weatherproof Enclosure **ACC650**

**Add-On Receivers**

Add-on receivers cost effectively add EchoStream wireless transmitters to any installation and includes either Form C relay (**EE4216MR** and **EE4232MR**) or open collector (**EE4232M**) outputs with dedicated alarm and fault. All add-on receivers are Grade 2 Security compliant, support multi-condition transmitters, and include event logging.

*Add On Receivers on Front*

*Grade 2 Security Products*

**Wireless Survey Kit**

The **EE7016** wireless survey kit is a portable and easy to use tool for determining the optimal location for sa transmitters and repeaters. The wireless survey kit reduces bid risk, decreases installation time, and builds credibility with clients.

The range and performance of any wireless product depends on the structure and environment in which it operates. Continual enhancements to our products may cause specifications to change without notice. Visit our website for UL information.
