

The Inovonics single input universal with EOL is a universal transmitter with an end of line resistor. The included 2.2k ohm resistor is required to operate the EN1210EOL.

Product Features

End of line resistor supervision

Mounting bracket included for quick and easy installation

Can be used with almost any standard NO/NC contact

Includes case tamper protection

Product Specifications

Dimensions:	3.5" x 1.7" x 0.9" (8.9 x 4.3 x 2.3 cm)
-------------	--

Weight:	1.9 oz. (54 g)
---------	----------------

Typical battery life:	3-5 years
-----------------------	-----------

Internal battery type:	Panasonic CR123A
------------------------	------------------

Accessories:	ACC1210-10 beige housing 10 pack, ACC1210-WH-10 white housing 10 pack
--------------	---

External contacts:	Normally open or normally closed
--------------------	----------------------------------

External contact cabling requirements:	14-22 gauge wire, unshielded
--	------------------------------

Distance, external contact to transmitter:	10' (3 m) maximum
--	-------------------

Operating environment:

Temperature:	-4 to 140°F (-20 to 60°C)
--------------	----------------------------

Humidity:	Up to 90% (non-condensing)
-----------	----------------------------

Market:	North America, Australia, New Zealand
---------	---------------------------------------

EchoStream® frequency:	902-928 MHz, frequency hopping spread spectrum
------------------------	--

Check-in time frequency:	3 minutes
--------------------------	-----------

Regulatory compliance:	FCC, ISED, RCM, RoHS
------------------------	----------------------
