

The Inovonics dual input universal transmitter is designed for use with any standard contact or sensor that provides a contact closure. The primary alarm input is selectable – normally open or closed – and the secondary alarm input is set to normally closed only.

Product Features

Supports dual inputs

Can be used with almost any standard NO/NC contact

Fully supervised

Includes case tamper protection

Product Specifications

Weight: 1.9 oz

Typical battery life: 3 – 5 years

Internal battery type: Panasonic CR123A

Accessories: ACC1210-10, EN1210/EN1212 white housing 10 pack, ACC1210B-10 EN1210/EN1212 brown housing 10 pack

External contacts: Input one can be normally open or normally closed; input two is always normally closed

External contact cabling requirements: 14 - 22 gauge wire, unshielded, 10 foot maximum length

Distance, external contact to transmitter: 10 feet maximum

Operating environment:

Temperature: -4 to 140°F

Humidity: Up to 90% (non-condensing)

Market: North America, Australia, New Zealand

EchoStream® frequency: 902-928 MHz, frequency hopping spread spectrum

Check-in time frequency: 3 minutes

Regulatory compliance: FCC, RoHS, Industry Canada

Mounting plate

The transmitter mounting plate hinges to the transmitter. Just mount the plate and snap the transmitter in place.

Inputs

Both inputs normally closed

Input one normally open
