Gateway Comparisons

RDL8500
Released 2010

EN7580
Released 2018

EN7581
Released 2018

Specifications			
Transmitter Limit	2000	2000	50
Dimensions	11.5" x 8.75" x 2.25"	9.56" x 6.65" x 1.2"	9.56" x 6.65" x 1.2"
Weight	2 lbs 7 oz	1 lb 3.54 oz	1 lb 3.54 oz
Operating Environment	← 32°F to 130°F, up to 90% Humidity →		
Integrated Receiver	No	Yes	Yes
Update Frequency	24 hours	15 minutes	15 minutes
Support for all Inovonics Transmitters (Water Detector, Temperature Detector, Contact Closure, etc.)	No	OTA*	OTA*
Connectivity			
Modem	Yes	No	No
Ethernet	Yes	Yes	Yes
WiFi/Cellular	No	Yes	Yes
TapWatch Compatibility			
TapWatch 3	Yes	No	No
TapWatch Application	Yes	Yes	Yes
Firmware Update			
USB	Yes	Yes	Yes
Over The Air (OTA)	No	Yes	Yes
Backwards Compatibility			
FA Support	Yes	Yes	Yes
Submetering Trade In Program	Yes	Yes	Yes
Power			
Line Power	Yes	Yes	Yes
Power Over Ethernet	No	Yes	Yes

Submetering Hardware and Software

TapWatch Comparisons

TapWatch 3

TapWatch Application

User Interface		
PC-Based	Yes	No
Cloud-Based	No	Yes
Use On Mobile Devices	No	Yes
Updates		
Software Downloads	Yes	No
Over The Air (OTA)	No	Yes
Site Access		
Keys	Yes	No
Permissions Granted in Application	No	Yes
Generating Reads		
Reads Scheduler	Yes	Yes
TapWatch APIs	No	Yes
On Demand - Portfolio and Site	No	Yes
Emailed Report	No	Yes
Reporting and Diagnostics		
Check In Monitor/Device Status	Yes	Yes
Device Discovery / Auto-Registration / Units Report	Yes	Yes
Flow Test	No	Yes
Abnormal Flow/Leak Detection	No	Yes
Exception Reports	No	Yes

Notes

- ✓ TapWatch gateways deployed in the field will receive the latest OTA updated automatically.
- ✓ TapWatch application will receive the latest software automatically upon Inovonics releasing the updates to the production server.
