

# Commercial Wireless for Life Safety Solutions

## Simple Solutions for Complicated Problems

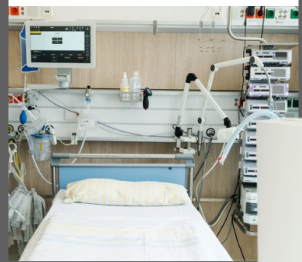

What are your project challenges? We may have a simple solution, consider the below benefits of Inovonics commercial wireless:

- **Flexibility & Range:** The intelligent repeater network accommodates virtually any size application, using a frequency-hopping, spread-spectrum technology. Easily adaptable for changing or temporary site configurations.
- **Reliability:** With over 30 years in commercial wireless leadership Inovonics has developed some of the industries most dependable high performance sensor networks.
- **Time & Cost Savings:** Quick and easy installation.
- **Easily Integrate with Other Systems:** The panel-agnostic EchoStream® network can connect to almost any system.

### Equipment Monitoring

EN1210 Single Input  
Universal

### Pendant Transmitters

EN1223S Single-Button  
Water-Resistant Pendant

### Pharmaceutical Storage

EN1752 Temperature  
Detector

### Motion Detection

EN1260 Wall Mount  
Motion Detector
