

When deployed as part of an Inovonics advanced location network, the ADVL1290 staff badge allows you to accurately locate employees in near real time for alarm response and other critical needs.

Product Features

Easy to wear	
Long battery life	
Durable, waterproof construction	

Product Specifications

Froduct Specifications	
Dimensions:	3.37" x 2.13" x .2" (85.6 x 54.1 x 5.2 mm)
Weight:	.7 oz (20 g)
Typical battery life:	Up to five years
Operating environment:	
Temperature:	-4° to 140°F (-20° to 60°C)
Environment:	Waterproof to IP67 standard
Market:	North America
Frequency:	2.4 GHz
Storage requirement:	50° to 77°F (10° to 25°C)
Check in time:	30 minutes
Regulatory compliance:	FCC, RoHS, Industry Canada

ADVL1290 Staff Badge Installation and Operation Manual

Inovonics Product Catalog: North America

- The range and performance of any wireless product depends on the structure and environment in which it
 operates.
- · Continual enhancements to our products may cause specifications to change without notice.
- Patents: 7,154,866; 7,554,932; 7,746,804; others pending.
- Inovonics supports recycling and reuse whenever possible. Please recycle these parts using a certified electronics recycler.
- The Inovonics advanced location solution provides a last known location for any location-enabled device sold by Inovonics. Last known location updates approximate real time changes in position. Location update latency will vary based on device movement (or lack thereof), communication paths and network traffic. Location accuracy is a function of the quality of the installation, including thorough testing both upfront and on an ongoing basis. Please follow all recommended best practices as provided by Inovonics.
