inovonics ®

When deployed as part of an Inovonics mobile duress or senior living system, EN5061 flush mount locators help determine precise floor and room location to improve response times.

Product Features

Provides precise location for alarm events when used with Inovonics location-enabled pendants

Flush mount design decreases visibility and ensures tamper-free operation

24/7 monitoring to maintain system health

Works with existing Inovonics security and senior living systems, eliminating forklift upgrades
